

Update on Electric Vehicles & EV Charging in the District of Columbia

DC Commission on Climate Change & Resiliency Quarterly Meeting

June 11, 2026

Mel Hogg, Department of Energy & Environment (DOEE)

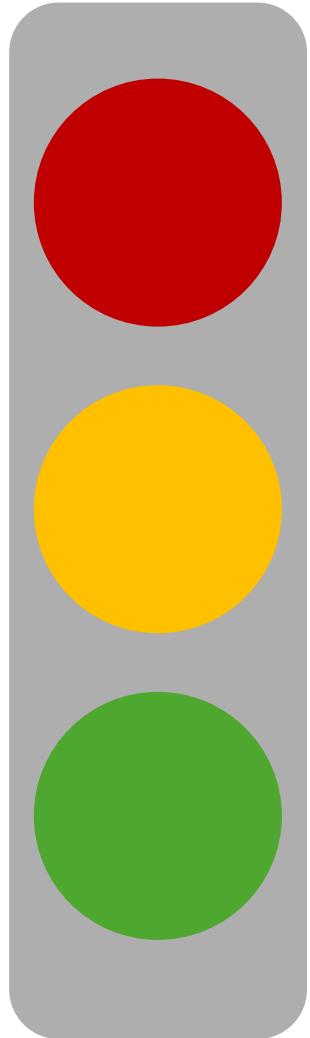

Agenda

- Status Updates
 - Policies, Legislation, & Plans
 - EV Ownership Trends
 - EV Charging Trends
 - Current Programs & Projects
 - Recently Installed Chargers
 - Public-Facing Resources

Policies, Legislation, & Plans

Repealed:

- Federal EV Tax Credit (September 2025)

Paused:

- \$15M Charging and Fueling Infrastructure Grant (January 2025)

Unfunded:

- EV Infrastructure Access, Readiness, and Sustainability Amendment Act (2024)

Before Council for Final Vote:

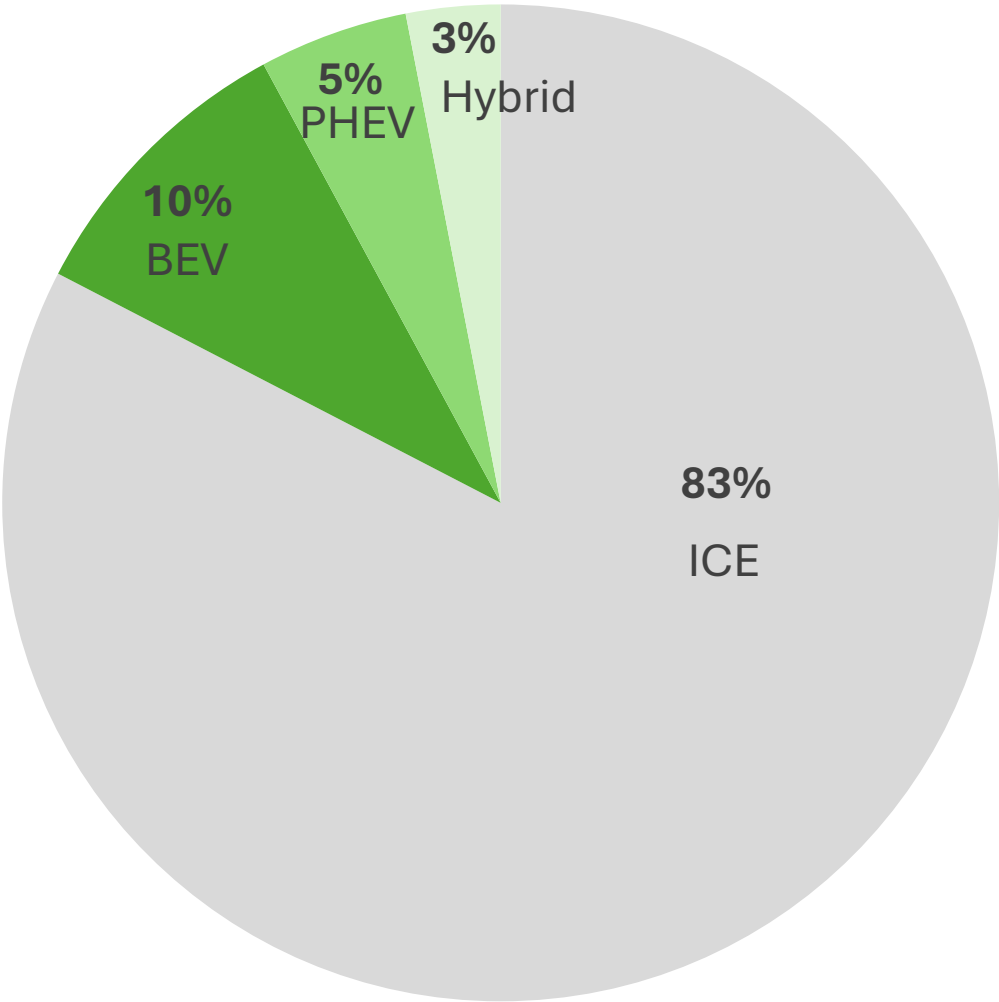

- FY 27 Budget Support Act Proposals:
 - Alternative Fuel Infrastructure Credit extension & amendment
 - Alternative Fuel Conversion Credit extension & amendment
 - EV Publicly Accessible Charging Stations Personal Property Tax Exemption Act

Enacted:

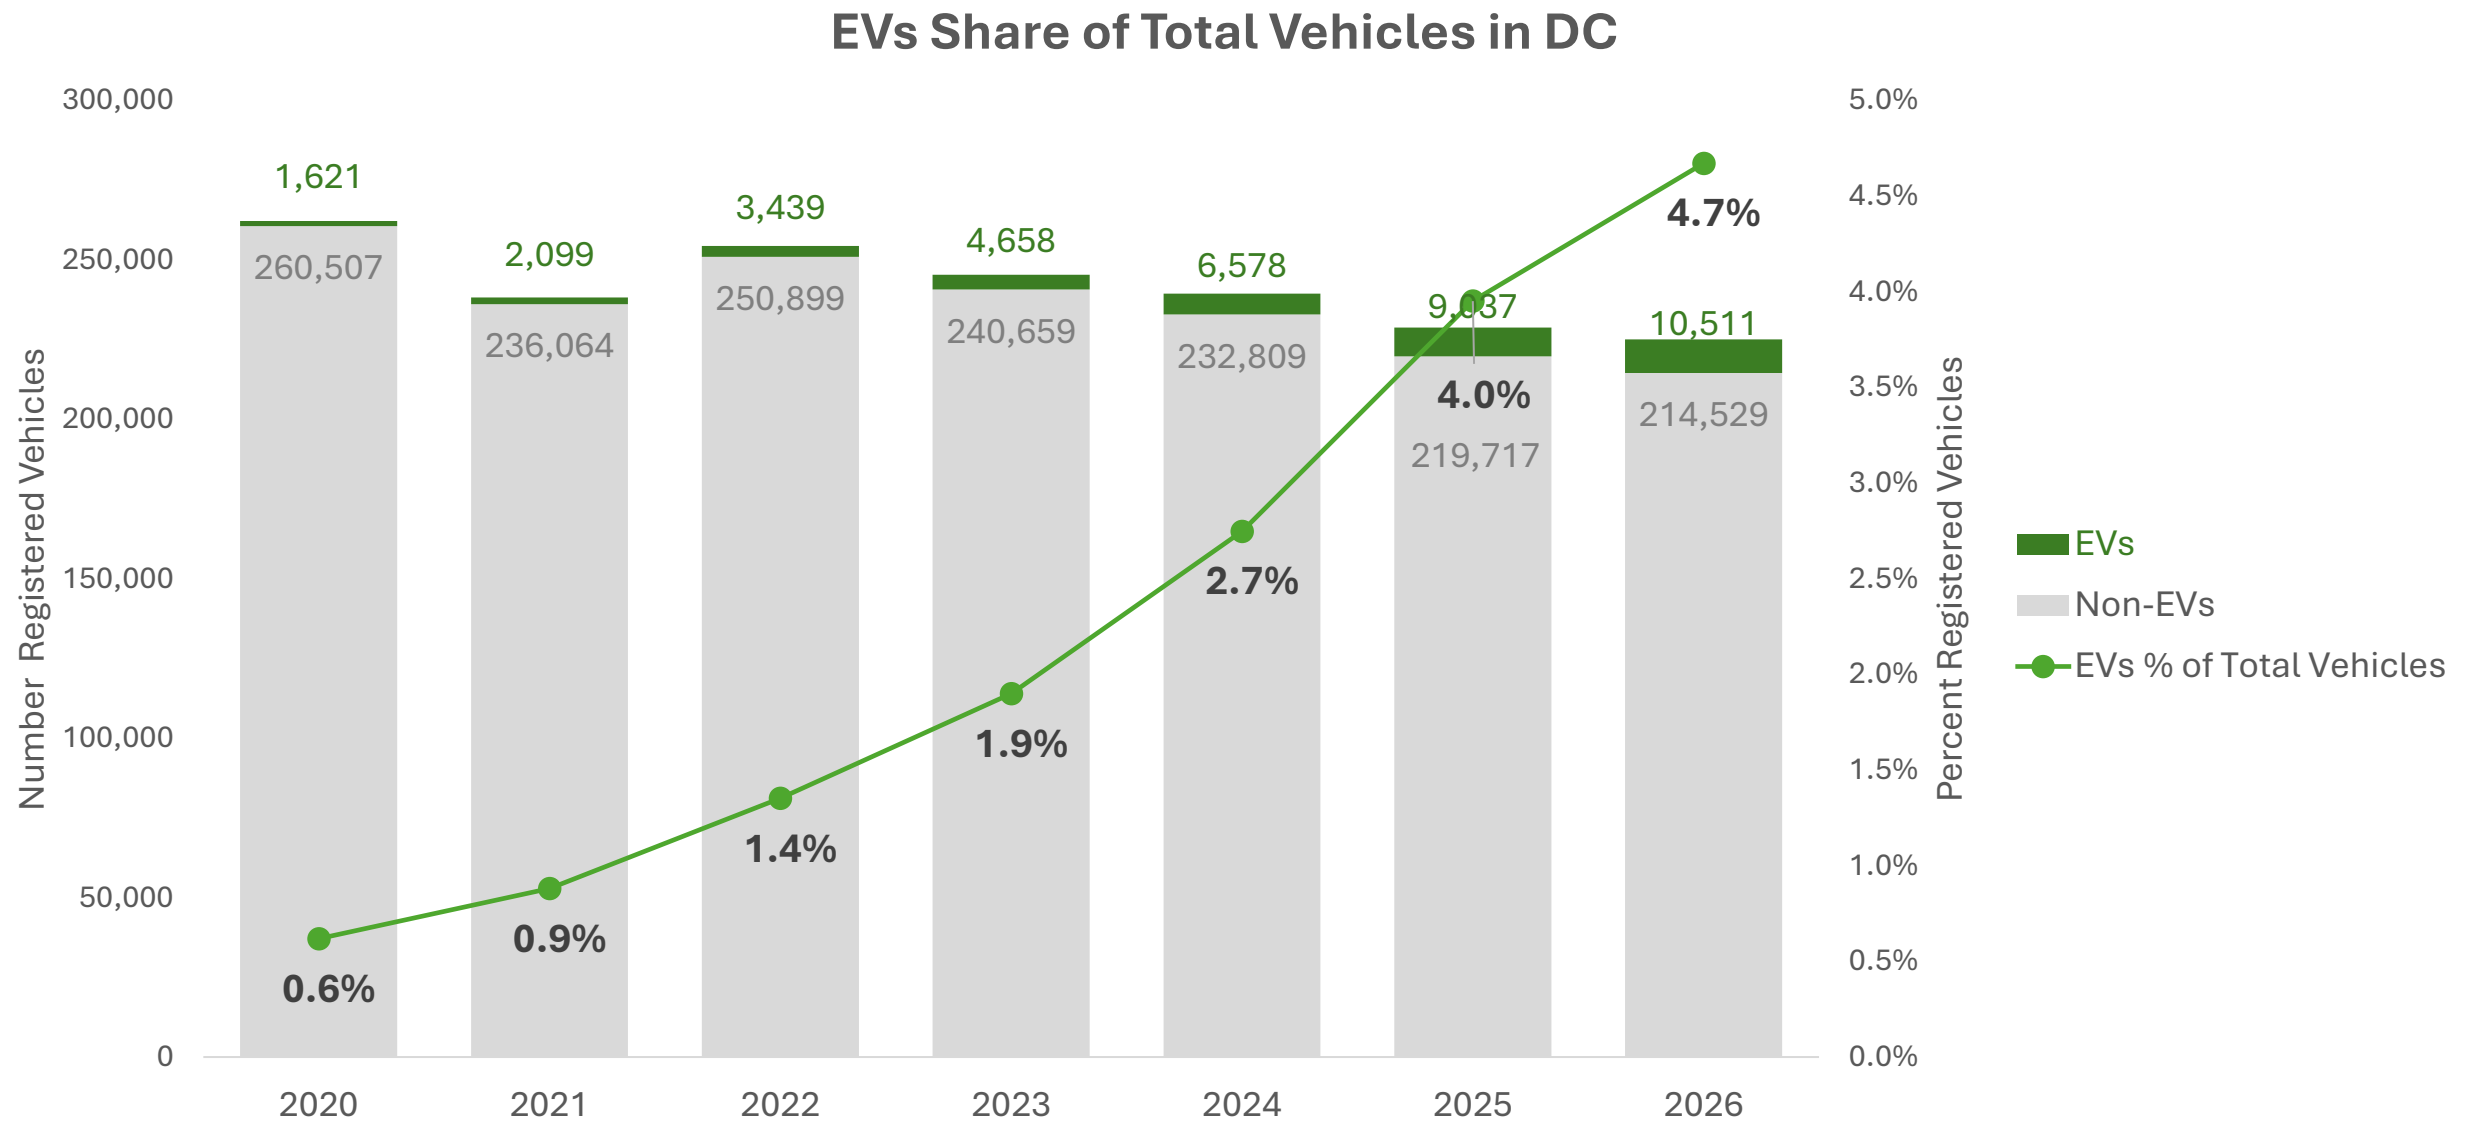

- Clean Energy DC Omnibus Act (2018)
- Transportation Electrification Roadmap (2022)

Current Status | EV Registrations (Government Fleet)

District Government Fleet Vehicles by Fuel Type (2025)

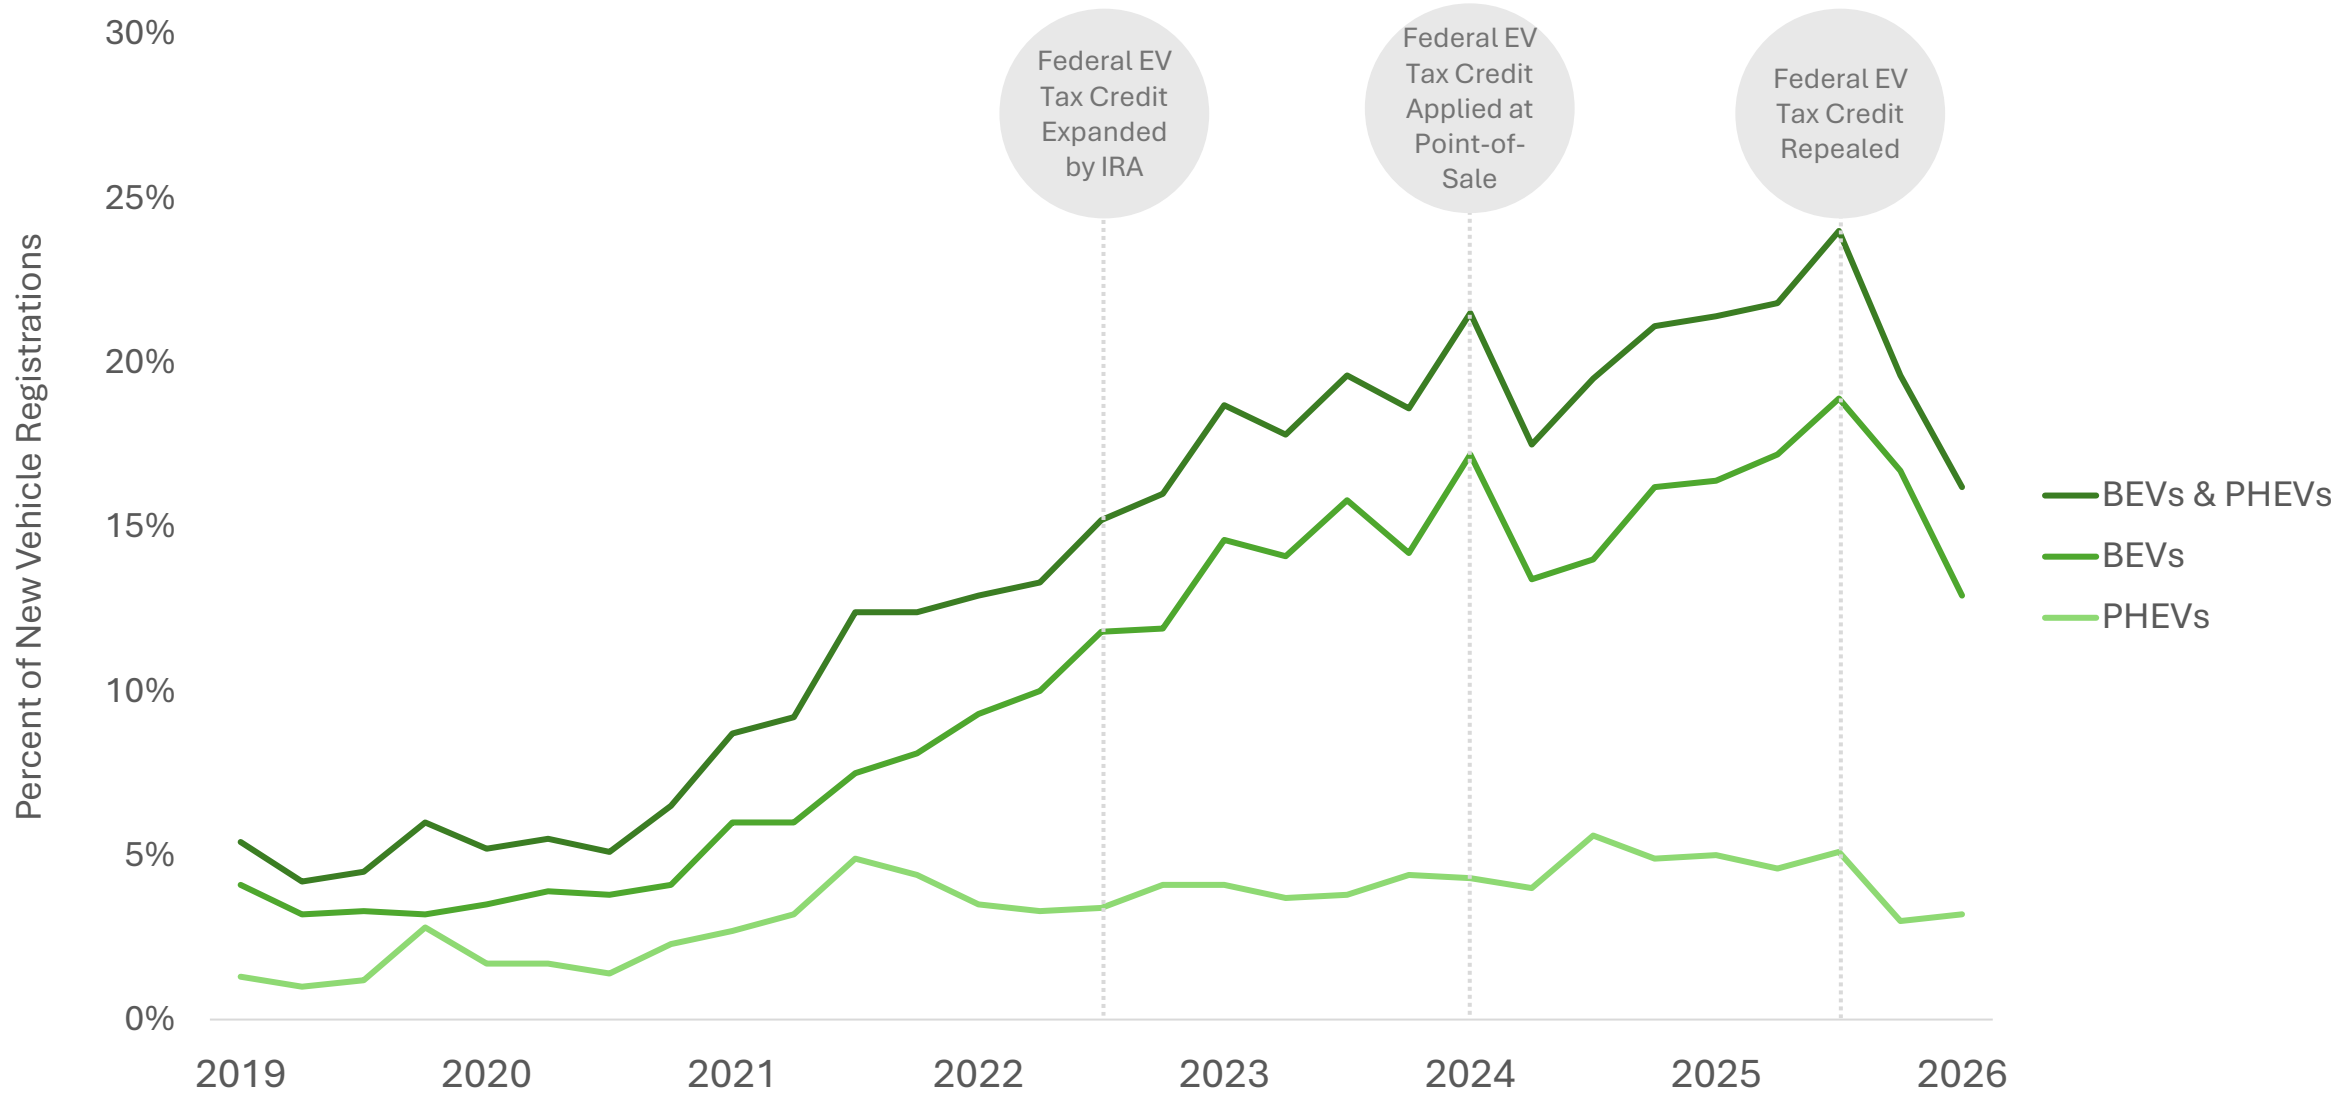

Current Status | EV Registrations (Total Vehicles)

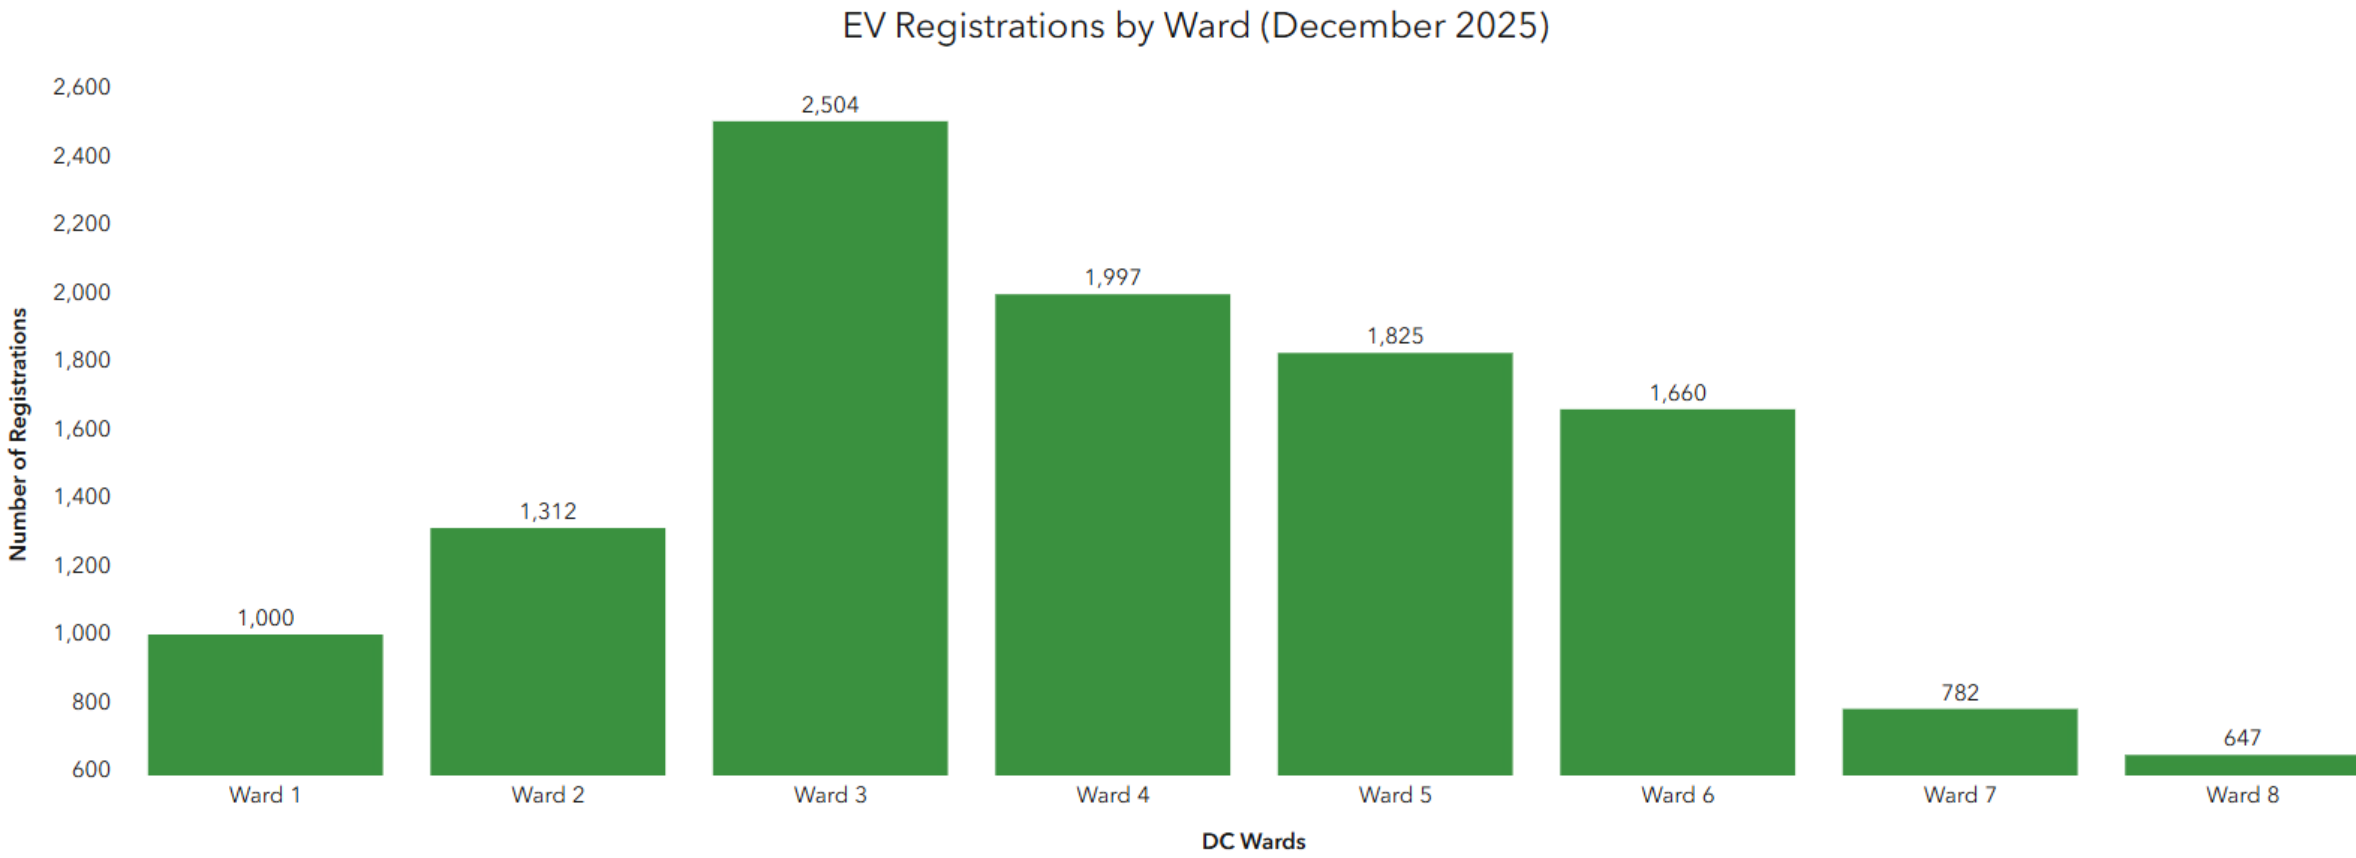

Current Status | EV Registrations (New Vehicles)

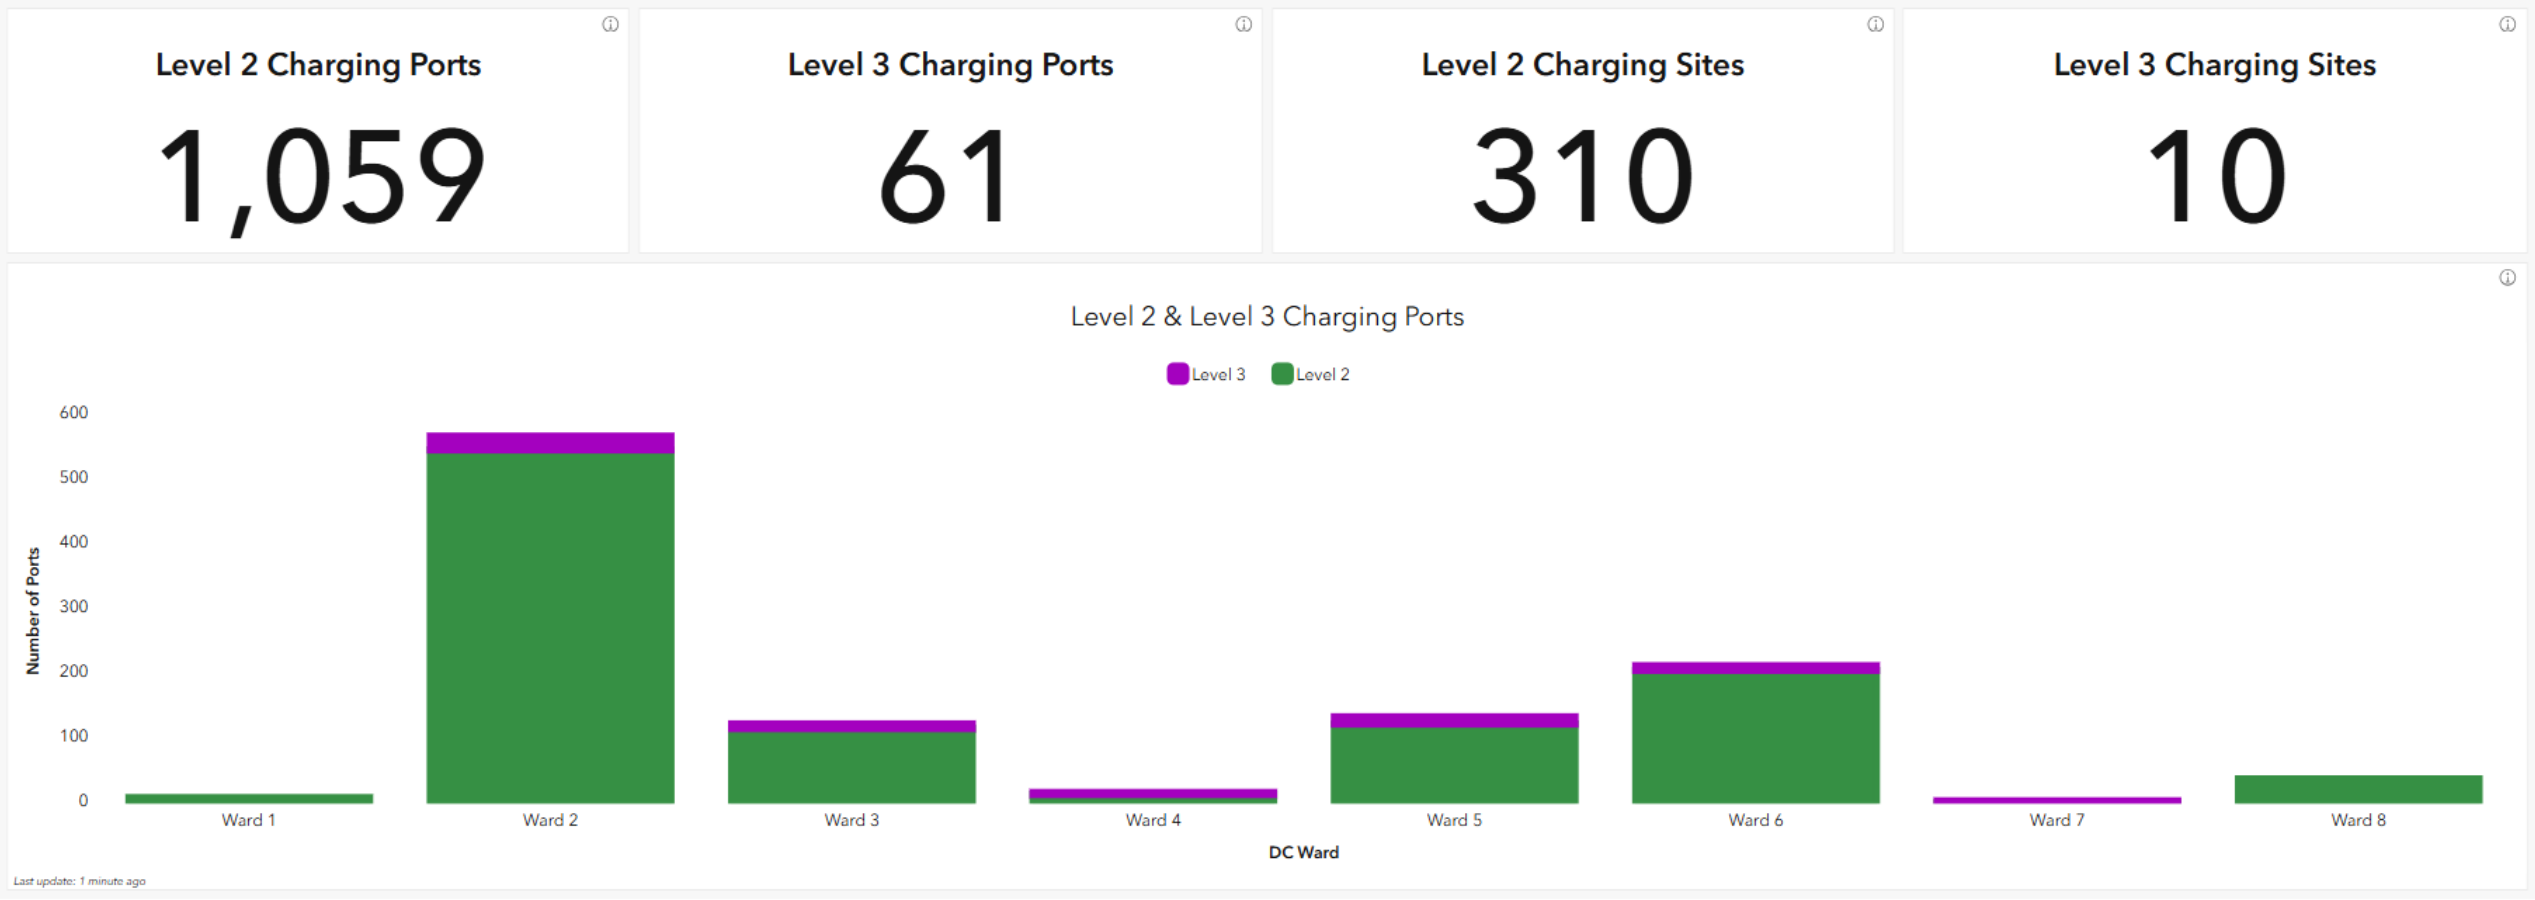

EVs Share of New Vehicle Registrations in DC

Current Status | EV Registrations (Total by Ward)

Current Status | EV Charging (Total by Speed & Ward)

Current Status | EV Charging Programs & Projects

PROJECT	LOCATION/ ACCESS		CHARGING SPEED		
	Public	At-Home	Level 1	Level 2	DCFC
National Electric Vehicle Infrastructure (NEVI) Grant Program					
Neighborhood Curbside Charging Pilot					
Public EV Charging Project					
Multifamily EV Charging Assistance Project					

Current Status | Recently Installed EV Chargers

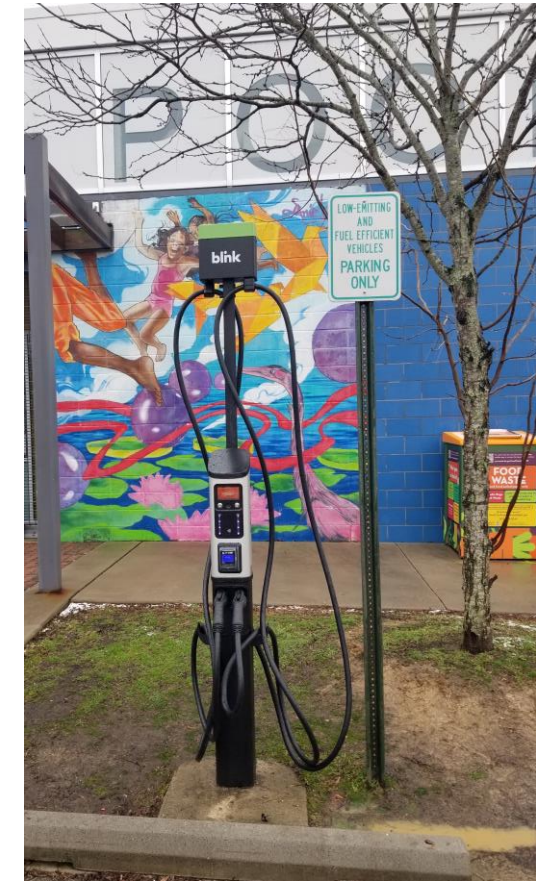

Benning Rd
Fast Charger (4 ports)
Ward 7
June 2025

Fort Dupont Ice Arena
Level 2 (5 ports)
Ward 7
Dec 2025

Festival Center
Level 2 (2 ports)
Ward 1
Feb 2026

Kenilworth Pool
Level 2 (2 ports)
Ward 7
Mar 2026

Electric Vehicle Resources

Electric vehicles are a cleaner, more sustainable alternative to traditional fossil fuel-powered vehicles. With new charging stations being installed, available financial incentives and lower-cost previously-owned vehicles entering the market, owning or leasing an EV is becoming an increasingly accessible and cost-effective option for District residents.

This page provides information on available resources, incentives, and programs for electric vehicles and EV charging in the District of Columbia.

District Transportation Electrification Policies and Legislation

The Clean Energy DC Omnibus Act of 2018

The [Clean Energy DC Omnibus Act of 2018](#) is a foundational piece of legislation that mandates a transition to 100% renewable electricity by 2032 and a zero-emission transportation sector by 2045. The Clean Energy DC Act establishes three main transportation goals:

- 25% or more of all vehicles registered in DC be zero-emission by 2030.
- 100% of all public and school buses are replaced with electric models as they reach the end of their useful life.
- 100% of public buses, public fleets, privately-owned fleets with a capacity of 50 or more passengers, and taxis and limousines are to be zero-emission by 2045 (and 50% zero-emissions by 2030).
